A 24-hour notice of cancellation is required to look for an alternative slot within the month. No lessons will be transferred to the next month. If the instructor cancelled the lesson with less than 24-hour notice and a catchup time cannot be agreed upon within the month a credit will be given the next month.

A Months' notice period is required if you would like to cancel your training agreement.

Our online system is set up with professional lighting and sound and two viewing monitors. This ensures that the instructor can see each client clearly in order to make corrections. We strive to make your experience comfortable, enjoyable and challenging.
